 MEDICARE PART B,
 G-CODES, PQRS
 AND ICD-10**

Starting your Own Practice from Scratch: Medicare Part B, G-Codes, PQRS and ICD-10

Course Description

The primary goal of this course is to provide you with a step-by-step guide to build your very own practice from scratch. As such, this course is dedicated to helping you put up your very own health facility where you can readily offer your professional therapeutic services to the people in your area.

From beginning to end, its content will give you step-by-step guidelines. If you put your heart and mind to the task, then you will surely succeed in establishing your own health facility.

This book is therefore conceptualized and designed to help the independent physical therapy practitioner and biller understand the most important things to know about Medicare Part B guidelines and how to bill and get paid for the services they render. Understanding records management systems and how claims can be facilitated through different health care insurance providers will help billers and independent physical therapy practitioners efficiently collect payments for services rendered.

About the Author

Caroline Joy Co, PT, DPT, CHT, CSFA, is a licensed physical therapist and certified hand therapist whose clinical experience includes acute, subacute, home health, and outpatient settings. Her background includes Community-Based Therapy that is designed to help people with disabilities access therapy in their communities. She is the President and CEO of

PT Sponsor.com, an online resource for U.S. hospitals and clinics that seek to sponsor and hire foreign-trained rehabilitation therapists. She specializes in hand therapy through an integrated approach that includes education, counsel, and exercise. She is also certified in functional assessment for work hardening and work conditioning.

Co is also the President of Iconic Rehab, a contracting agency. Her past affiliations include Long Beach Medical Center in New York, Horizon Health and Subacute Center in California, and Grandell Therapy and Nursing Center. Co was a professional speaker for Summit Professional Education, Cross Country Education and Dogwood Institute. She received her transitional doctorate from A.T. Still University and her BS in Physical Therapy from University of the Philippines College of Allied Medical Professions. She is licensed in California, Nevada, and New York.
